APanel Extend－Brief Manual

## APanel Extend Brief Manual

First released：Jan 3，2011；Last modified：Jan 3， 2011

APanel Extend（APE）is aiming at providing state－of－the－art weather forecast for astronomers．APE provides 8 －day forecast in a step of 3 －hour．The panel is arranged by time：one column refers to one given day，and one row refers one given hour．For each time point，there will be one or two icons illustrating the predicting weather condition as well as digital numbers presenting the predicted temperature in Centigrade or Fahrenheit．Each icon and the meaning it donated is illustrate in the table below．

|  | Fine (<20\% cloud) | $\begin{gathered} \text { Mostly Fine } \\ (20 \%-60 \% \text { cloud }) \end{gathered}$ | $\begin{gathered} \text { Cloudy } \\ (60 \%-80 \% \text { cloud }) \end{gathered}$ | $\begin{gathered} \text { Overcast } \\ (>80 \% \text { cloud }) \end{gathered}$ |
| :---: | :---: | :---: | :---: | :---: |
| No Rainfall | Day 综 Night＊＊ | Day ${ }^{\text {－}}$ Night ${ }^{\text {＊}}$ | $\bigcirc$ | 3 |
| Rain | Day ${ }_{\text {容 }}^{\text {Night }}$＊ |  | 0 | 3 |
| Snow | Day ${ }^{\text {宽 }}$ Night ${ }^{\text {＊}}$ |  | $\stackrel{9}{*}$ | \％ |

Additionally，there are three＂warning signals＂．

| Icon |  | Meaning |
| :---: | :---: | :---: |
| $\therefore \quad$ Very Wet | $>90 \%$ Relative Humidity |  |
| $\quad$ T－storm | Lifted Index＜－1；Thunderstorm possible |  |
|  | Windy | Wind expected to reach Strong／Gale or higher |

The color of the temperature values are assigned according to the conversion table below．

| ＜－75C | $\begin{gathered} -75 \mathrm{C} \text { to } \\ -70 \mathrm{C} \end{gathered}$ | $\begin{gathered} -70 \mathrm{C} \text { to } \\ -65 \mathrm{C} \end{gathered}$ | $\begin{gathered} -65 \mathrm{C} \text { to } \\ -60 \mathrm{C} \end{gathered}$ | $\begin{gathered} -60 \mathrm{C} \text { to } \\ -55 \mathrm{C} \end{gathered}$ | $\begin{gathered} -55 \mathrm{C} \text { to } \\ -50 \mathrm{C} \end{gathered}$ | $\begin{gathered} -50 \mathrm{C} \text { to } \\ -45 \mathrm{C} \end{gathered}$ | $\begin{gathered} -45 \mathrm{C} \text { to } \\ -40 \mathrm{C} \end{gathered}$ | $\begin{gathered} -40 \mathrm{C} \text { to } \\ -35 \mathrm{C} \end{gathered}$ | $\begin{gathered} -35 \mathrm{C} \text { to } \\ -30 \mathrm{C} \end{gathered}$ | $\begin{aligned} & -30 \mathrm{C} \text { to } \\ & -25 \mathrm{C} \end{aligned}$ | $\begin{gathered} -25 \mathrm{C} \text { to } \\ -20 \mathrm{C} \end{gathered}$ | $\begin{gathered} -20 \mathrm{C} \text { to } \\ -15 \mathrm{C} \end{gathered}$ | $\begin{gathered} -15 \mathrm{C} \text { to } \\ -10 \mathrm{C} \end{gathered}$ | -10 C to－5C | －5C to 0C |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| $<-103 \mathrm{~F}$ | -103 F to －94F | －94F to－85F | －85F to－76F | －76F to－67F | －67F to－58F | －58F to－49F | －49F to－40F | －40F to－31F | －31F to－22F | 22F to－13F | -13 F to－4F | －4F to 5F | 5F to 14F | 14 F to 23 F | 23F to 32F |
